Battery indicator light

[Battery display status]

■	□	□	□	□	The battery level is lower than 20%. The first light flashes for 3 seconds and
■	□	□	□	□	the battery level is greater than 20%. The first light stays on for 3 seconds and the
■	■	□	□	□	battery level is greater than 40%. The first two lights stay on for 3 seconds and the
■	■	■	□	□	battery level is greater than 60%. The first three lights stay on for 3 seconds. The
■	■	■	■	□	battery capacity is greater than 80% per second, the first four lights stay on for 3
■	■	■	■	■	seconds to fully charge, and the five lights stay on for 3 seconds.

How to charge a smartwatch

State 2: Mobile charger charges the watch:

Charging: 5 LEDs flash and charge in a marquee manner

The specific charging steps are as follows: 1.

After checking the direction (the charging contacts of the bracelet are on the same side as the charger contacts),

Align the bottom of the mobile charger with the front of the watch and snap it in.

2. After the charger is attached to the watch, press the side button to start charging.

3. The five "charging indicator lights" are displayed in a revolving light, indicating that charging is in progress.

Note: This machine is powered by a built-in (non-removable) battery, and the smart watch needs to be charged for 4 hours to be fully charged.

How to lock a watch strap

1 Align the long strap with the lock

2 Press and hold the middle part of the button with your finger. Be careful not to press the button on one side.
When the button is pressed, the button surface is basically flush with the lock surface.

How to unlock

1 Align the bottom of the lock opener with the front of the lock

2 Press the middle button to unlock
